

PAPER REGISTRATION FORMS-A HUGE SECURITY RISK

Sean Palen, Owner

POWER TIME SPORTS, Flemington, New Jersey

Power Time Sports hosts a variety of leagues, tournaments, camps, and clinics for football, lacrosse, baseball, softball, soccer, cheerleading, and fitness. www.powertimesports.com

“I used to worry about the security of personal information on my registration forms. Now, I have the reassurance that my information is safe and my leagues will run smoothly.”

THE CHALLENGE:

With dozens of tournament, league, camp and clinic sign-ups, Power Time Sports needed a safe and secure registration process. Using traditional forms meant registrants' sensitive data was on paper - a major security risk owner Sean Palen wanted to avoid.

THE SOLUTION:

Sean began using Member Solutions' online registration tool, [Event Manager](#). Within one hour of training, he created a web-based sign-up process, turning each registration into a private, secure transaction.

THE RESULTS:

With all credit card transactions processed on Member Solutions' secured server, Sean can now rest assured that his customers' information is protected. Event Manager has also resulted in a smoother registration process for Sean and his participants, helping to increase registration counts and member satisfaction. Sean has also taken advantage of the consulting and advisory support provided by Member Solutions and says that *“He could not be more pleased with finding Member Solutions, a real partner for his business.”*
